TECHNICAL REQUIREMENTS

Students must have their own device, especially a laptop. If you do not have your own laptop or PC, these are available for students when on campus.

WORD OF CAUTION:

The learning activities and content of our programmes require that the primary device that you will use should be a desktop computer and/or a laptop computer. Although you may find it beneficial to use a mobile device like a smartphone or a tablet when you are "on the move" to quickly access your programme, mobile devices are not considered sufficient to meet the technical requirement of our programmes. There are computers available at each campus to assist you on your eta journey.

Own data is essential if students work off-campus. Wifi is free on campus and can be accessed before, during and after classes

eta provides study spaces with devices and wifi

eta likes to work on a no-homework policy so students can complete their studies on campus

Access to all learning resources, library books and journals are included in **eta** tuition fees
